

RECORD GROUP 3

ADMINISTRATION, 1911 TO PRESENT DAY

The year 1911, when the Jesuit fathers assumed responsibility of the college is one of the founding dates of the University. The archives contain correspondence, reports and various other printed matter and media from the administrations of all University presidents and their staffs beginning with Rev. Richard A. Gleeson, (1911-1914).

Some records include those of President Sullivan (1926-1930) documenting the construction of the modern campus in 1929 and President Whelan's (1942-1949) whose correspondence documents the establishment of an US Army Specialized Training Unit on the Loyola campus. Following World War II, increased enrollment and a corresponding explosion of the amount of records generated by the University caused a dramatic increase in the size of presidential materials.

Extensive subject and correspondence files relevant to contemporary higher education are found beginning with the administration of President Charles S. Casassa, SJ (1949-1969). Annual symposia (1987-1993), the Casassa Conferences, created numerous unpublished monographs and papers which discussed interdisciplinary social justice and cultural thought and are included in this group. Other records include Administration publications such as campus catalogs beginning with Los Angeles College's *First Annual Catalog* in 1911.

The records of over one hundred university committees are also found in this group. Records of other university officials may be found here such as University Provost (the Marymount College President) during the Loyola-Marymount affiliation years of 1968 through 1973.

Record Series D: Office of the University President..... 3

- SERIES 11: DR. DONALD P. MERRIFIELD, SJ, 1969-1984 3
